

Gift of the Givers stationary distribution to schools.

The Grandmaster in action.

Gift of the Givers stationary distribution to schools.

How serious are we as a society in imparting values of Ubuntu and Humanity to our children and those around us, both in word and example. Gift of the Givers Japan Earthquake/Tsunami campaign addresses this very issue by encouraging South African students at all levels, Primary, Secondary and Tertiary, to participate in a campaign that will serve our own value system more than it will serve Japan.

In a world seriously challenged with the ongoing aftermath of global recession, negative growth and failing economies, man can lose his innate potential of selflessness. Technological advancement, entrepreneurial excellence and wealth generation becomes an obsession, not that that in itself is a negative concept, for the outcome may be positive, leading to job creation and the evolution of society. However, that evolution, out of necessity, has to be accompanied by the spirit of giving, sharing and reflecting on the pain of others, in this case the children and people of Japan. It is in the reflection and the "giving till it hurts" that we develop a caring generation, which in spiritual terms brings its own blessing spiritually and materially.

Gift of the Givers invites learners, parents and adults to participate in their schools, workplace, sports clubs and social groups to join this campaign of Ubuntu to benefit a society which has not asked, nor have they complained but have patiently endured whatever befall them. They are an extension of our humanity; they are a part of the global family, that makes them our people, our family.

Imtiaz Sooliman

Dr. Imtiaz Sooliman, Chairman and Founder of Gift of the Givers and Grandmaster Kancho Kanazawa, Chief Guest of honor of the Gift of the Givers 2010 International Kanazawa Cup.

Gift of the Givers responded immediately the disaster took place and delivered 30 000 USD of emergency supplies including food, water and blankets through its Japanese partner, SKIF, (Shotokan Karate International Federation), under the supervision of the undisputed 80 year old grandmaster of karate, Kancho Kanazawa, recognised internationally as the greatest grandmaster by all karate styles. With a network in 150 countries and 3.5 million members worldwide, the integrity, respect and reliability of this partner of Gift of the Givers makes relief work just so much easier.

## Schools reach out to Japan

The Gift of the Givers Foundation is the largest disaster relief organisation of African origin on the African continent. Gift of the Givers assists irrespective of race, religion, colour, class, political affiliation or geographical boundary. The aim of this project is not solely based on funds, but also to create awareness amongst our youth and get them involved in assisting those in dire need. Youths will be able to learn the value of giving and sharing and how their donation can assist a family or child in need in Japan. The process is very simple: each student that chooses to participate will get a form that has 30 columns; each column represents a R10 donation. The school decides how many forms it requires (see participating schools list on our website).

To motivate our youth, upon completion of this drive:

### Motivation for Schools

- Each school will receive a trophy
- All participating schools will receive media & broadcasting attention & be listed on our website
- Each participating school will receive a cleaning detergent hamper from Gift of the Givers and

### Motivation for Students

- Each class who participated will receive a certificate
- Each student who participated will receive a certificate
- The student who raised the most funds in each school will receive a medal and a pin badge

We look forward to your school being a part of this initiative. If you require any additional information, please do not hesitate to contact any of our offices.
